X Denotes Home Grown

What We Have to Offer

The following list of nursery stock consists of varieties tried and selected from among many as being adapted to this section. Hardiness is not merely a matter of temperature resistance, but of a combination of soil conditions, rainfall, sudden temperature changes, and atmospheric conditions. Consequently we must grow those varieties that, under average conditions, will reward the planter with good results, with proper care.

The exceptional feature of stock which we grow here, is that our invigorating high-altitude climate, and our cultural practices bring out a certain rugged vigor, and sturdiness, as well as the finest kind of root systems, not found elsewhere. Our stock has been heartily endorsed by horticultural experts, and orchardists swear by our Colorado grown fruit trees.

This catalog represents a cross-section of the best varieties that will do well in this section. Every variety of fruits and ornamentals in our stock has some outstanding quality characteristic of its type, which can hardly be substituted by other varieties.

If you desire larger quantities of any item listed, or if you desire grades or varieties not listed we shall be glad to quote by letter.

We shall be glad to help you with your orchard or landscaping problems. Do not hesitate to write or see us.

One of Our Bearing Cherry Orchards

We select from bearing trees only for assurance of better producing strains and true-to-name varieties.

Fruit Trees and Plants

*all apples marked as home grown
are 1 1/2 bush*

Apple Trees

Prices apply to varieties described below.

	Price each	per 10	per 100
Heavy 4 to 6 ft.	.50	4.50	40.00
Medium 4 to 5 ft.	.40	3.50	30.00
3 to 4 ft. size	.30	2.50	20.00

Summer Varieties

YELLOW TRANSPARENT. Ripens in August, a splendid early cooking and eating apple; medium to large, pale yellow fruit. Hardy, bears young.

RED JUNE. August. Medium size, deep red, good flavor; productive.

WHITNEY CRAB. August. Hardy, good bearer; fruit small to medium, striped red and green, fine for eating and canning.

Fall Varieties

ANOKA. A recent variety noted as a very early bearer, hardy, and adapted to limited space; ripens September, light red, flaked yellow.

WEALTHY. September. Fine reliable bearer of large red-striped tender, juicy, slightly sub-acid fruit.

Winter Varieties

BLACK BEN. Solid deep red, late keeping variety; one of the most dependable commercial varieties; unexcelled for pies.

CORTLAND. New. Beautiful red apple of McIntosh parentage, excellent quality, good keeper; dessert or cooking.

DELICIOUS. Red. One of the best flavored eating apples grown, and brings the fanciest market price.

GOLDEN WINESAP. Recent variety; large yellow apples tinged crimson; good keeper.

JONATHAN. Medium size of finest quality; bright red, fine flavor; moderate grower.

MCINTOSH. A leading variety. Large solid red, tender, juicy, aromatic. Tree hardy, good bearer. Canadian origin.

NORTHWESTERN GREENING. A good winter cooking apple; large, greenish yellow, firm. Productive bearer.

SHERIFF. A variety of particular merit for this section. The tree is one of the hardiest and thriftiest, very shapely; bears young; consistent cropper. Apples good size and quality, nearly all over red with orange shading. Supply limited.

WINESAP. Medium size dark red. Flesh yellow, rich, sprightly, sub-acid. Good quality.

Crab Apples

FLORENCE. Very hardy. A medium size tree bearing abundant crops of small yellow and bright red apples for jellies and preserving. Fall.

RED SIBERIAN. Vary hardy. Very thrifty grower producing enormous yields of small, firm, yellow and red apples prized for jelly. Fall.

WHITNEY. See summer apples.

Cherry Trees

Caliper means diameter in inches at the base of the tree trunk. In our practice of producing stocky, well-branched trees so necessary for successful development in our western climate, the height to which we grow them is of secondary importance. Therefore the height given below is approximate, and the caliper will govern the price.

10,000 Colorado grown trees while they last.

Caliper in.	Approx. height	ea.	10	100
*11-16 and up	4 ft. and up	.50	4.50	40.00
9-16 to 11-16	3½ ft. and up	.40	3.50	30.00
7-16 to 9-16	2½ ft. and up	.35	3.00	25.00
5-16 to 7-16	2 ft. and up	.25	2.00	18.00

*In Montmorency and English Morello only.

EARLY RICHMOND. Ripens about July 1; fruit medium sized, red.

ENGLISH MORELLO. Ripens late July. Fruit large, nearly black, very attractive. Starts bearing heavily at early age.

MONTMORENCY. The best all around sour cherry grown. Ripens mid-July; fruit large bright red. Leading commercial variety.

OSTHIEME. Nearly black, tender, juicy and almost sweet; medium to large size. Should be planted instead of Morello where a more hardy black variety is desired.

Plum Trees

	ea.	10	100
Heavy 4 to 6 ft.	.50	4.50	40.00
Medium 3 to 5 ft.	.40	3.50	30.00

European Plums

GERMAN PRUNE. Medium large, oval, blue. Rich and sweet; popular.

GREEN GAGE. Medium large, rich, sweet. Color greenish yellow.

SHROPSHIRE DAMSON. Dark purple, medium small. Good commercial demand; preserving type.

YELLOW EGG. Fruit large rich yellow, mild sweet flavor.

American Plums

This type deserves particular merit for western planting due to hardiness and quality, and early bearing.

MONITOR. Large, firm, fine quality red fruit. Thrifty grower.

TERRY. Medium to large, bright red, fine flavor; dependable.

UNDERWOOD. Ripens August. Fruit attractive, large red, firm, juicy, freestone. Strong grower.

WANETA. August. Fruit very large, deep bright red thin skin, delicious flavor. One of the very best.

WILD GOOSE. Medium, red, juicy, sweet. July, August.

COMPASS CHERRY-PLUM. Small, wine red, distinct flavor. Very hardy and early bearer.

Other Fruit Trees

PEACHES, APRICOTS, SWEET CHERRIES, PEARS, are generally not successful northerly on the eastern slope of the Rockies, and we cannot guarantee future results of trees. However, we can furnish above in good trees where desired. Write for prices.

Small Fruits

For home use and market.

Grapes

Strong 2 yr. vines, postpaid at price each.

	ea.	10	100
Prices except Concord	.20	1.50	12.50
Concord	.15	1.25	10.00

BETA. Very hardy. Small black fruit for jelly and juices.

CONCORD. The widely planted blue-black grape.

DIAMOND. Prolific, greenish-white, sweet juicy. Champagne variety.

MOORES EARLY. Similar to Concord, ripening two weeks earlier escaping early frost.

WORDEN. A slight improvement on Concord; a little earlier. Healthy.

Currants

Strong 2 yr. plants, postpaid at price each.

CHERRY. A good standard, large, clear red variety. Early. Price each, 20c; per 10, \$1.50; per 100, \$12.50.

PERFECTION. The largest berried, most attractive red currant on the market. Price each, 25c; per 10, \$2.00; per 100, \$17.50.

Gooseberries

Strong 2 yr. plants, postpaid at price each.

Price each 20c; per 10, \$1.50; per 100, \$12.50.

CARRIE. Large, sweet, reddish pink when ripe.

DOWNING. Vigorous; large greenish - yellow when ripe.

Raspberries

BLACK CUMBERLAND. The largest and very best black-cap. Vigorous growth and prolific. Price per dozen, postpaid, 60c; per 100, not postpaid, \$3.50.

CHIEF. New disease resistant mate for Latham, ripening 10 days earlier; has the other same fine qualities of Latham. Price per doz., postpaid, 60c; per 100, not postpaid, \$3.50.

LATHAM. The new, most widely planted red raspberry in recent years, displacing old varieties. Prolific, strong mosaic-resistant canes; firm, very large berries. Price per doz., postpaid, 60c; per 100, not postpaid, \$3.00.

MARLBORO. A fine bright red standard variety for years in Colorado. Price per doz., postpaid, 60c; per 100, not postpaid, \$3.00.

ST. REGIS EVERBEARING. Harvest one crop without winter protection, and two crops if canes are covered during winter. Berries fair size, crimson, good flavor. Price per doz., postpaid, 60c; per 100, not postpaid, \$3.50.

Write for prices on 1,000 lots of fruits.

Strawberries

Postpaid by doz. or 100 lots.

MASTODON. Best in size, color, flavor, and yield of all everbearers. Price per doz., 40c; per 100, \$1.75.

Garden Roots

ASPARAGUS. Mary Washington, the leading rust-resistant variety. 2 yr. No. 1 plants. Price per dozen, 40c; 100, \$2.00. Postpaid.

HORSERADISH. Price ea., 10c; per doz., \$1.00. Postpaid.

RHUBARB. Victoria, medium size, tender stalks. Price ea., 10c; per doz., \$1.00.

Ornamentals

For beauty, comfort, entertainment, and actually adding dollars to the value of your property.

Ornamental Shrubs

The numerals following the name is approximate height at maturity in feet.

ALMOND, Pink Flowering. 5-6. Branches studied with bright pink flowers before the leaves appear. 18 to 24 in. ea., 60c.

BARBERRY, Japanese. 4-5. Hardy shrub for low hedges, foundation, or groups; rich green foliage turning to red in autumn; red berries. 3 yr. clumps ea., 40c.

BARBERRY, Red-Leaved. 3-4. Newer form of above, having blood red leaves all summer in sunny location; red berries. Small clumps ea., 35c.

BUTTERFLY BUSH, Magnifica. 5-6. Grows from ground each season, producing long clusters of lilac flowers. Strong No. 1 plants, ea. 40c.

CARAGANA, Siberian Pea Tree. 10-15. Large shrub for specimens, screens or hedges; attractive locust like foliage, green stems, small yellow pea shape flowers, May. 4 to 5 ft. ea., 50c; 3-4 ft. ea., 40c.

COTONEASTER, Acutifolia. 8-10. Graceful, very hardy; dark green foliage; black berries and brilliant foliage in autumn. 2 to 3 ft. ea., 40c.

DOGWOOD, Alba Sibirica. 6-8. Bright red-twigged variety; small white flowers in May. Valuable in winter landscape. 2 to 3 ft. ea., 40c.

DOGWOOD, Goldentwig. 6-8. Bright yellow twigs, contrasting beautifully with the red variety. 2 to 3 ft. ea., 40c.

EUONYMOUS, Elatus. "Winged burning bush." 6-8. Very attractive shrub, foundation or specimen; corky winged branches; red and crimson leaves in fall. 12-18 in. ea. 30c

HONEYSUCKLE, Pink Tatarian. 8-12. Hardy, vigorous grower; pink flowers in spring followed by bright red berries. 2 ft. ea., 35c; 4 to 5 ft. well branched clumps ea., \$1.00.

HONEYSUCKLE, Red Tatarian. 8-10. Scarlet pink flowering type of above shrub. 3 to 4 ft. ea., 50c.

HYDRANGEA, A. G. 3-5. Bears very large clusters of snow-white flowers. Thrives in shade or partial shade. Usually starts from ground every spring in this climate. 3 yr. plants ea., 40c.

HYDRANGEA, P. G. 4-6. Large lilac-shaped bloom clusters, white turning to pink, bronze in late summer. 3 yr. plants ea., 40c.

LESPEDEZA, Desmodium Penduliflorum. 3-4. Canes from the ground each spring forming arched branches with drooping rich purple flowers in late summer. Medium plants ea., 50c.

LILAC—Syringa

This class of shrubs is of great value for Western planting; they are hardy, drouth resistant, and unexcelled during their blooming season for beauty and fragrance.

Common Purple. 12-15. The popular old time purple May flowering variety. 2 to 3 ft., ea., 40c.

Common White. 12-18. White flowering variety of above. 2 to 3 ft. ea., 50c.

Hungarian, Josikea. 8-10. Blooms in June, escaping late frost; flowers deep violet; dark shiny green foliage. 18 to 24 in., ea., 50c.

Japanese Tree Lilac, Japonica. 18-20. Creamy white flowers appear in June-July. Handsome upright grower. 3 to 4 ft. ea., 75c.

Persian, Persica. 8-10. Flowers little later than Common Lilac; color light lilac; smaller leaves. 2 to 3 ft. ea., 50c.

X **MOCK ORANGE**, *Philadelphus Coronarius*. 8-10. A popular well known shrub. White fragrant flowers in May-June. 3 to 4 ft. ea., 50c.

X **MOCK ORANGE**, *Philadelphus Virginal*. .6-8. Medium grower, bearing many beautiful fragrant semi-double flowers over a long season from May on. 2 to 3 ft. ea., 50c.

POTENTILLA FRUITUCOSA, Shrubby Cinquefoil. 2-3. Dwarf shrub bearing bright yellow flowers throughout the summer; very hardy. For specimens, groups, shade or sun. 12 to 18 in. ea., 50c.

X **PRIVET**, *Amoor River*. 10-12. Can be used as individual shrubs, and is very extensively used for trimmed hedge; has rich green foliage; small white fragrant flowers. 3 to 4 ft. clumps ea., 50c; 2 to 3 ft. clumps, ea., 35c.

See Hedge Plants.

X **PRUNUS CISTENA**, Purple Leaf Plum. 5-6. Developed from the Western Sand Cherry into a beautiful shrub or small tree. The new foliage is deep blood red shading to bronze green; small pink flowers, May. Adds variety and color. 2 to 3 ft. ea., 50c; 4 to 5 ft. ea., \$1.00.

FLOWERING CURRANT, *Ribes Odoratum*. 5-6. A handsome hardy shrub bearing many bright yellow fragrant flowers, April-May. Foliage appears early and assumes beautiful autumn colors. 2 to 3 ft. ea., 40c.

X **ROSA RUBRIFOLIA**, Red Leaf Rose. 6-8. One of the hardiest shrub roses with purple-red foliage all summer beautifully studded with starry bright pink blossoms in June. 3 to 4 ft. ea., 75c.

X **SNOWBALL**, Common. 10-12. Forms many balls of pure white flowers in May-June. 2 to 3 ft. ea., 50c.

X **SNOWBERRY**, White. 3-5. Attractive green foliage, pink flowers, June-July. Large white fruit in clusters in Autumn. 18 to 24 in. ea., 35c; 2 to 3 ft. ea., 50c.

X **SNOWBERRY**, Red or Indian Currant. 3-5. Has dark close-set foliage and clusters of red berries massed along drooping branches in winter. 18 to 24 in. ea., 35c; 2 to 3 ft. ea., 50c.

SPIREA

X **Anthony Waterer**. 2-3. Dwarf; flat red flower clusters over long period. Clumps ea., 40c.

Arguta or Garland. 4-5. One of the earliest shrubs to bloom in the spring; upright, hardy; small light green leaves, covered with single white flowers, April-May. 2 to 3 ft. ea., 50c.

X **Frobeli**. 3-4. Red flower clusters like Anthony Waterer, but more vigorous; red spring and autumn foliage. Clumps ea., 50c.

X **Billardi**. 4-5. Pink plume-like flower clusters on tall erect stems. Likes moisture and partial shade. 2 to 3 ft. ea., 40c.

X **Van Houtte**. 5-6. "Bridal Wreath." One of the best shrubs. A fountain of white flowers in May-June; foliage and form ornamental the year round. Heavy 3 to 4 ft. clumps ea., 75c; heavy 2 to 3 ft. clumps ea., 50c; 2 ft. ea., 35c.

X **SUMAC**. Fern Leaf. 10-12. Splendid shredded foliage; red fruit clusters; brilliant autumn foliage. 3 to 4 ft. ea., 75c; 2 to 3 ft. ea., 50c.

TAMARIX Hispida. 12-15. One of the hardiest and best; has feathery silver foliage, bright coral-pink flowers, June-July. In bloom longer than any other variety. 2 to 3 ft. ea., 50c.

X **VIBURNUM Opulus**. Highbush Cranberry. 10-12. Decorative shrub with white flower clusters in May followed by clusters of scarlet berries. 2 to 3 ft. ea., 50c.

X **WILLOW**. Pussy. 15-20. Popular for large gray catkins in early spring. 4 to 5 ft. ea., 75c.

Hedge Plants

Varieties are described under shrubs and trees, but are smaller, lighter grades. Although Privet is best adapted to shearing, the other varieties can also be trimmed for compactness, or left as informal hedges.

	Price per 10	per 100
BARBERRY, Japanese, 12-18 in.	\$1.50	\$12.50
PRIVET, Amoor River, 12-18 in.	1.00	7.50
PRIVET, Amoor River, 2-3 ft.	2.00	15.00
RUSSIAN OLIVE, 2-3 ft.	1.50	12.00
SPIREA, Van Houtte, 12-18 in.	1.50	12.00

Also other varieties for screen, hedge, or wind-break.

Shade and Ornamental Trees

Plant shade trees. Create a sheltered environment for your home that you will be proud of, and decorate it with ornamental trees and shrubs.

➤ **CRAB.** Bechtels Flowering. 12-15. Bears many rose-like double pink flowers in May. 4 to 5 ft. ea., \$1.25.

BIRCH. Cut Leaved Weeping. 30-40. A very graceful and attractive tree with drooping limbs and cut-leaved foliage; silvery white bark. 5 to 6 ft. ea., \$1.75; 8 to 10 ft. ea., \$3.50.

✕ **ELM.** American. 60-100. The well known large spreading tree; native of America. 6 to 8 ft. ea., 85c; 8 to 10 ft. ea., \$1.00; 2 in. caliper ea., \$2.00.

✕ **ELM.** Chinese. 40-50. The U. S. Dept. of Agriculture says: "The Chinese Elm is a rapid grower, with slender, almost wiry branches. It is one of the first trees to leaf out in the spring and the last to shed its leaves in the fall. It is remarkably free from plant diseases and insect injuries.

"It is very hardy and has proved valuable under a greater variety of climatic and soil conditions than any tree yet introduced."

This tree is of great value, especially in the West. In addition to its fine qualities of growth, the Chinese Elm is very attractive in appearance. The following trees are very well rooted and correctly shaped.

	Price ea.	per 10
5 to 6 ft.	\$.65	\$ 5.50
6 to 8 ft.	.85	7.50
8 to 10 ft.	1.00	9.00
1¼ to 1½ in cal.	1.50	12.50
1½ to 2 in. cal.	2.00	17.50

Caliper is trunk diameter at base.

ELM. Moline. 80-100. Fine, shapely new type of American Elm; makes a rapid, tall, upright growth. Large leaves. 4 to 5 ft. ea., 50c; 8 to 10 ft. ea., \$1.50; 2 in. caliper ea., \$2.50.

✕ **HONEYLOCUST.** 40-50. A thorny tree with attractive pinnate leaves. Fragrant white flowers in May. Succeeds on most any kind of soil. 4 to 5 ft. ea., 50c.

➤ **GLOBE LOCUST.** Umbrella Locust. 10-15. A grafted variety forming a very attractive low round head; deep green foliage. Much hardier and better than Catalpa. Heads grafted on 5 to 6 ft. stems ea., \$2.00.

✕ **MAPLE.** Soft or Silver. 60-80. The well known rapid growing variety; foliage white on under side. 6 to 8 ft. ea., 75c; 8 to 10 ft. ea., \$1.00.

➤ **MAPLE.** Skinners Cut Leaved. 50-60. A very attractive form of Silver Maple with dense cut leaved foliage and drooping branches. 8 to 10 ft. ea., \$1.50.

MOUNTAIN ASH. European. 20-30. Has dense regular form, and rich green fern-like foliage; has many clusters of orange-red berries in summer and fall. 6 ft. ea., \$1.50.

We have several hundred
7 Moline. Elm 145, from Buds 2 to 5

MULBERRY. Tea's Weeping. 7-8. Unlike anything heretofore introduced. Forms perfect umbrella-shaped head with long slender branches drooping to the ground. Also bears sweet black berries; hardy and vigorous. Heads grafted on 5 to 6 ft. stems ea., \$2.00.

X **MULBERRY.** Russian. Hardy rapid growing tree; black sweet berries. 6 to 8 ft. ea., 75c.

X **POPLAR.** Bolleanna. 50-60. One of the most attractive trees of any variety, and unquestionably the outstanding poplar. Tall slender shape resembles Lombardy; foliage is rich deep green, lobed, and silvery underneath. Bark is smooth light green. This is not Silver Poplar. 5 to 6 ft. ea., 75c; 6 to 8 ft. ea., \$1.00.

X **POPLAR.** Carolina. 60-80. Pyramidal tree of very rapid growth; large luxuriant foliage. 6 to 8 ft. ea., 60c; 8 to 10 ft. ea., 75c.

X **POPLAR,** Lombardy. 60-80. Tall spire-like grower; thick-set branches. 6 to 8 ft. ea., 60c; 8 to 10 ft. ea., 75c.

X **POPLAR.** Simoni. 60-80. Shape similar to Lombardy; smaller leaves. 6 to 8 ft. ea., 60c; 8 to 10 ft. ea., 75c.

X **RUSSIAN OLIVE.** 20-25. One of the hardier trees. Fine for hedge, screen, or specimen small tree for contrast. Has narrow silvery foliage and stems; small very fragrant blossoms. 5 to 6 ft. ea., 75c; 6 to 8 ft. ea., \$1.00.

X **WILLOW.** Laurel Leaf. 30-40. Has attractive dark shiny laurel-like leaves. Hardy. 4 to 5 ft. ea., 50c; 6 to 8 ft. ea., \$1.00.

X **WILLOW.** Niobe Weeping. 30-35. Has very attractive golden bark, and long pendulous branches; beautiful in summer and of striking appearance in winter. 5 to 6 ft. ea., 75c; 6 to 8 ft. ea., \$1.00.

Evergreens

Consider the year round ornamental value of evergreens. Even when deciduous trees and shrubs are in leaf, there are characters of evergreens for which other plants cannot be substituted.

The following varieties are of great value in landscape planting, and we have found them perfectly hardy. We can quote on some other hardy varieties not listed here.

X **COLORADO BLUE SPRUCE.** This is the choicest and most beautiful of all evergreens; of symmetrical, pyramidal form; foliage rich and silvery blue. Several times transplanted and developed.

1 to 1½ ft.	each \$2.25
1½ to 2 ft.	each 3.50
2 to 2½ ft.	each 4.50
2½ to 3 ft.	each 5.50
3 to 3½ ft.	each 6.50
3½ to 4 ft.	each 7.50

X **COLORADO SPRUCE.** Green type. This type has the same habits of the good blue type, but is of a greenish color. Often used with blue type for contrast. Prices are 1-3 less than blue type quoted above.

Junipers

X **SCOPULORUM JUNIPER,** or Colorado Silver Juniper. This is the perfectly hardy variety of upright growing juniper; growth narrow and compact; foliage a silvery blue.

1½ to 2 ft. ea., \$2.50; 2 to 3 ft. ea., \$3.75; 3 to 4 ft. ea., \$5.50.

PFITZER'S JUNIPER. A low spreading juniper, one of the best; foliage attractive blue-green. X 12 to 15 in. ea., \$2.00; 2 to 2½ ft. spread ea., \$3.75.

SAVIN JUNIPER. Low growing type with numerous upright fan-shaped branches; handsome moss green foliage. 12 to 15 in. spread, ea., \$2.00; 2 to 2½ ft. spread, ea., \$3.75.

Climbing Vines

Postpaid

Strong Two Year Grades

CLEMATIS. Jackmanni. 10-15. One of the most beautiful vines grown. Open flowers from four to six inches across; rich velvety purple. Blooms profusely from July on. ea., 75c.

CLEMATIS. Coccinnea. 5-6. Bright scarlet, heavy petaled flower, bell shaped; blooms from July till frost. Perennial. Ea., 50c.

BOSTON IVY. 30-40. Beautiful foliage in spring and summer changing to crimson scarlet in autumn. Clings tight to brick, stone or concrete walls. Best on north side. Ea., 50c.

ENGLMANN IVY. 30-40. Neat hardy, self-climber on brick or stone walls; brilliant autumn colors. Rapid growing and very dependable. Ea., 40c.

GRAPE. Beta. See fruit grapes.

HONEYSUCKLE. Halleanna. 15-20. Rich green foliage remains into winter; bears many creamy white fragrant flowers after July. Ea., 45c.

SILVER LACE VINE. Polygonum auberti. 20-25. Rapid grower; fresh green foliage decorated with clouds of foamy white, fragrant flowers from July on. Ea., 75c.

TRUMPET VINE. Bignonia radicans. 20-25. Large trumpet-shaped, orange red flowers in summer. Heavy slow grower. Ea., 45c.

ROSES

The following varieties have been carefully selected for adaptability to our climate, and general merit. You can't go wrong on any of these varieties.

Newer and Outstanding Varieties

Tea and Hybrid Tea. Bloom all summer.

Price each, 60c; \$6.00 per dozen, 6 at dozen rate.

BETTY UPRICHARD. Center petals a rich salmon-pink to carmine, outer petals are carmine with coppery shadings suffused orange.

ETOILE DE HOLLANDE. Many large, velvety crimson flowers produced throughout the summer; richly fragrant. One of the best red Teas for general purposes.

DAME EDITH HELEN. One of the largest and most perfectly formed pink roses known; glowing clear pink color on strong stems.

GOLDEN EMBLEM. This variety heads the list for a perfectly formed flower; beautiful unfading yellow, opening buds splashed with carmine.

PRESIDENT HERBERT HOOVER. A gorgeous rose of new color combination. Pointed coppery red buds on rigid stems open into large flowers of dazzling combination of vivid cerise pink, scarlet-orange and gold.

TALISMAN. The very popular outstanding rose novelty. Brilliant orange-red buds open to large high pointed bloom of glowing yellow stained with copper-red and orange-rose on inside of petals.

Favorite Standard Varieties

Tea and Hybrid Tea. Bloom all summer.

40c each; \$4.00 per dozen, 6 at dozen rate

~~X~~ **ETOILE DE FRANCE.** This thrifty growing variety produces many large dark crimson, double blossoms; very popular.

~~X~~ **GRUS AN TEPLITZ.** Bright scarlet shading to velvety crimson; fragrant; very free flowering.

~~X~~ **K A. VICTORIA.** A most popular white rose. Bears many large creamy white, perfectly formed flowers; very fragrant.

~~X~~ **LOS ANGELES.** Beautifully shaped, fragrant flowers of pale salmon-pink, richly shaded with deep rose and gold.

~~X~~ **RADIANCE,** Pink. Hardy, vigorous, and prolific. This is a fine all-round garden rose of brilliant rose-pink.

RED RADIANCE. This is the bright rosy-red form of Pink Radiance.

~~X~~ **WILLOWMERE.** Long pointed buds and brilliant pink blooms suffused with gold.

SUNBURST. Rich yellow cupped flowers shaded coppery orange.

CLIMBING ROSES

DOROTHY PERKINS. Beautiful shell-pink flowers are borne in large clusters of small double blooms, very sweet scented. This is the hardiest and thriftiest of standard climbers. Price ea., 40c.

~~X~~ **PAULS SCARLET.** For brilliant color this rose is unsurpassed. Produces clusters of semi-double, vivid dazzling crimson blooms. Price ea., 50c.

BLAZE—The New Everblooming Scarlet Climber, protected by Plant Patent No. 10. The first of its kind ever introduced; the rose sensation of the past season, a cross between Pauls Scarlet and Grus an Teplitz, having every element to insure its success; a combination of the vigor, brilliance and hardness of Pauls Scarlet, and the everblooming qualities of Grus an Teplitz. Be the first in your community to have one. Large strong plants ea. \$2.00.

Perennials

Postpaid.

~~X~~ **BLEEDING HEART.** Graceful racemes of pink, heart shaped flowers in spring. Ea., 40c.

BABY BREATH. Gypsophila. Clouds of tiny white flowers. Ea., 20c.

COLUMBINE. Rocky Mountain. The beautiful Colorado state flower; petals and spurs deep blue, center creamy white. Ea., 25c.

DELPHINIUM. Belladonna. Long spikes of clear turquoise blue; blooms from June till frost if cut after blooming. Ea. 20c; \$2.00 per dozen.

DELPHINIUM. Bellamosa. Good companion for Belladonna; dark blue. Ea. 20c; \$2.00 per dozen.

HOLLYHOCKS. Double. Separate Colors. Red, Pink, White, Yellow. Ea. 20c; \$2.00 per dozen.

PYRETHRUM. Painted Daisy. Daisy-like flowers, rosy red shades; fern-like foliage. Ea. 25c; \$2.50 per dozen.

ORIENTAL POPPY. Large orange-scarlet flowers May-June make it one of the showiest of plants. Ea. 25c; \$2.00 per dozen.

SHASTA DAISY. Alaska (Burbank). Large snow-white flowers, blooming over long season. Ea. 20c; \$2.00 per dozen.

Venus 83. Very compact; hydrangea-pink. Mid-season. Ea., 50c.

Peonies by color, unnamed, Red, Pink, or White, price each 25c; 5 for \$1.00.

Water Lilies and Plants

Postpaid.

The ease with which water lilies are grown require no previous experience. All that is necessary is sunshine, still water, and rich soil, and not too much shade. Hardy water lilies give an abundance of bloom all summer, opening wide in the morning and closing in the afternoon, and we offer a color range including white, pink, red, and yellow. A water garden can be established in a half-tub, or a natural, or concrete pool, a foot of manure-richened soil in the bottom, and a foot of water over the lilies. For winter, lilies may be mulched with or without draining in the larger pool, or stored in the cellar, keeping them cool and moist. Plant from April till August.

WHITE

Marliac White......Snowy white flowers with yellow stamens, 5 to 6 inches in diameter. A desirable free flowering variety. Ea., \$1.00.

PINK

Marliac Pink. A most popular free bloomer. Color is an exquisite pale pink; quite large. Ea., \$1.25.

YELLOW

Marliac Yellow. (M. Cromatella). Bright sulphur yellow with broad curving petals; produces a constant procession of large blooms; vigorous. Leaves spotted with maroon. Ea., \$1.50.

SUNSET COLOR

Paul Hariot......Colorful orange-pink, deepening on following days. One of the best all around varieties, sturdy, profuse; has harmonious color. Ea., \$2.00.

RED

James Bryden. Gorgeous vivid rosy crimson blossom, full petalled and broadly cupped; bronzy-red leaves. Very desirable with those familiar with it. Ea., \$3.00.

Water Plants

To complete the pool.

Water Hyacinth. Delicate spikes of lavender flowers as beautiful as an orchid. Floats on water but should be anchored to bloom. 2 for 25c; 5 for 50c.

Water Poppy. Trailing plant producing large yellow poppy flowers. Plant like lilies. Ea., 20c; 3 for 50c.

Floating Heart. Heart shaped leaves and bright yellow flowers size of half-dollar. Plant like lilies. Ea., 20c; 3 for 50c.

Parrot Feather. Feathery green shoots trail over water in soft airy mass. Plant in shallow water. Per bunch, 15c; 4 for 50c.

COLLECTION A: One each of all water lilies and plants listed above (Catalog Value \$9.55) for \$7.50. Postpaid.

COLLECTION B: Marliac Trio, one each, Pink, White, and Yellow; one Parrot Feather and one Water Poppy (Catalog Value \$3.20) for \$2.75. Postpaid.

Our Guarantee

Our purpose is mutual with that of the customer, in that every plant produce maximum results. The best we can do is to turn our nursery stock over to the customer in the best possible condition, but we have no way of controlling the future care, weather, or other factors beyond ur control. We do guarantee all our nursery stock to be as represented, free from disease, absolutely true to name, and to reach the customer in good growing condition.

Stock proving untrue to name shall, at our option, be replaced free, or original purchase price shall be refunded; or, replacement or refunding of original purchase price will be made if stock arrives in damaged condition, providing claim is made at once. It is mutually agreed, that in no case, shall seller be liable for a greater sum than original purchase price. We do not substitute without purchaser's knowledge or consent.

TERMS

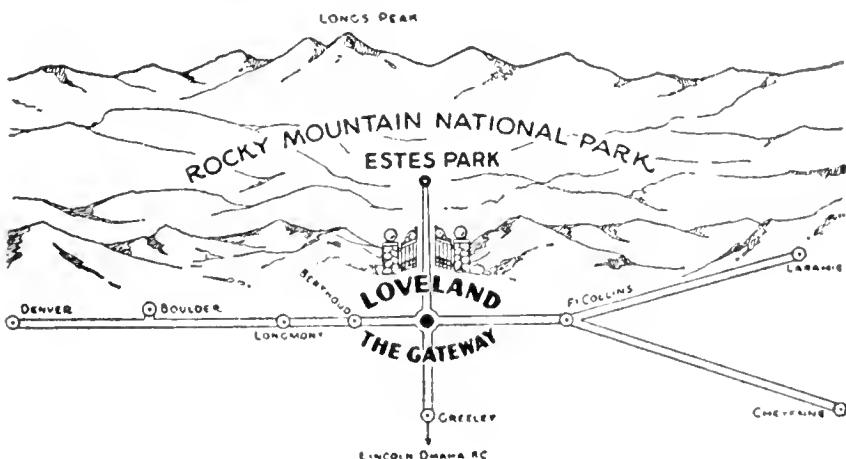

Prices are cash with order; C.O.D. orders must be accompanied by at least one-fourth cash.

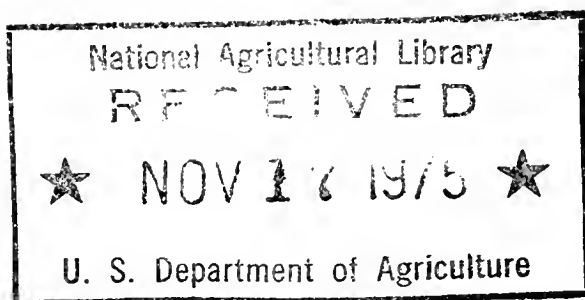

We prepay those items so indicated in catalog; others travel at purchaser's expense. Express shipments are best on the larger items; these rates have been reduced about 20 percent.

Rates unless otherwise noted, are quantities from 1 to 5 at price each; 5 to 25 at rate per 10; 25 to 250 at 100 rates. Where each rate only is given, a dozen can be furnished at ten times rate each with six at dozen rate.

Shipping season for spring, March 15 to May 10; early April planting is best.

Note: Prices and stock here quoted can be furnished subject to supply at printed price. If present monetary adjustments, and rising prices warrant, we reserve the right to notify customer of price change upon immediate acknowledgment of his order.
